To: The Secretary General
World Bowling
Date: May 30, 2019
From: Kaoru Kitagawa
President
Japan Bowling Congress

Dear Secretary General,

At the moment, at the other championships held at the crown of the World Bowling Championships, including juniors and youths, there is an age setting for participation, but there are no divisions, and world seniors are held without age classification.

- Expectations for global competition improvement in wider seniors
- Creation of participation opportunity for elderly players
- It can be more appealing that it is a big feature of bowling, and it is possible to compete in all age groups

Therefore, in addition to two divisions (men's and women's), we propose to place two age groups, senior (50-64 years old) and grand senior (65 years old or older) at the World Senior Championships.

With best regards,

Kaoru Kitagawa
